

Verse Mapping

A process of examining a Bible verse more closely.

Five Simple Steps:

Step 1

Gather your materials:

- an index card (sheet of paper, journal, or whatever you want to use as your canvas)
- your Bible
- a pen or pencil – Use any color(s) you want!

Step 2

Choose a Bible verse. This can be a favorite verse, one you are studying at church or in your devotions, or one your family has selected to “map” together.

Step 3

Write the verse on your “canvas.” It is a great idea to write it in the middle of your canvas and to leave plenty of space around it.

Step 4

Map your verse. Use the **Verse Mapping Guide** to help you with ideas.

Step 5

When you are finished “mapping” your verse or at the end of your day, pull out your Verse Map and take another look at the verse. Pray to God and share what you have learned, or share what you have learned with another person.
